Dear Mr. Khoa Cai,

Thank you so much for your kind message!
I am happy to hear that you have access to the shared folder.

Have a great evening and a good week!

Best regards,

Dr. Jan Krzyzanowski

Data Expert – Economist - Lecturer

Dear Dr. Jan Krzyzanowski,

Thank you so much for your quick response.

Please take care. Perhaps you got sick because of working pressure and cold weather there during the Christmas period.

I got access to the shared iCloud folder, and I am going to let you know if I have a question when looking in the shared files tomorrow morning.

Have a nice evening.

Regards,

Within the shared folder, you can find two subfolders: i) Slides & ii) Exercises.

I would kindly ask you to support me – as much as your working time permit – with the following points:

1. Adjust the Exercise Sessions in a Format which is consistent with the format from the Power-Point-Slides.
   I think it makes sense to add the respective exercise sessions also as slides in the very end of each Power-Point-Presentation – please do so by applying – as usual – the established format.

2. The Word file "VGU_WPMF_Exercises_Consolidated.doc" contains a collection of 100 questions.
   I would kindly ask you to look for very short mock solutions for these Exercises which also reference to the corresponding lecture slides.
   If I remember correctly, the exercises should be set up in chronological order, i.e. the exercises in the beginning should refer to the first lectures.
   For this purpose, the adjusted Slides should be utilized which are contained in the folder "Slides".
   Important note: Please do not invest much time for each question; the responses should serve the students as a quick orientation as to what would be expected in the response as well as the source where to look for the more details within the slides.

   My suggestion would be here that you prepare a separate Power-Point-Presentation which contains the collection of all exercises and (at the very end) a short summary of the solutions to each question.

3. Double-Check the Lecture Notes
   In a final step, I would appreciate if you could double-check the slides in terms of i) design, ii) consistent terminology (FinTech and not Fintech; BigTech and not Bigtech…); only If your time permits.

Thank you once again for your support – please only as much as your working hours permit!!

Have a great remainder of the week!

Best regards,
Dr. Jan Krzyzanowski

By the way, I would like to let you know that I am going to be on vacation leave from December 25 to 29. Therefore, please let me know the next steps of exercise adjustments in order for the remaining preparation to be done before your course gets started on January, 6th, 2024.

Thank you very much for your kind response with all the explanations!!
It is very late in Vietnam - I hope that you did not spend all the time working on the slides?!
Please let me know if I am occupying too much of your time!

Thank you very much again for your support!
Have a great and relaxing weekend! :-)

Best Regards,

Dr. Jan Krzyzanowski

I would like to place the updated ppt files, their PDF versions as well as the text file with the explanations in the shared folder "BigTech" for your download. They still need your revision on some points before a stable release. The files are compressed with a password, JanKrzyzanowskiDNM.

> Dear Mr. Khoa Cai,

I wanted to thank you for your great and continuous support in context of the preparation of the course! 😊
I finally had some time to take a (deeper) look at the current state of the slides. Overall, they look really good!

In the attached txt-document you can find my comments to the current state of the slides.
I would highly appreciate if you managed to update the slides based on my comments.

Once you have finished this, I am looking forward to receiving an updated version of all slide sessions (in both, PowerPoint and PDF).

In a subsequent step (after the slides have been updated), I will work on the exercise sessions. Here, minor adjustments in the formatting will also be required and I would appreciate if you could also support me in this task.

Have a great remainder of the weekend and a good start of the new week!

Best regards,

Dr. Jan Krzyzanowski
